

## Mrs. Jana's Preschool Enrichment Class

The Preschool Enrichment Class is an extension of the morning program for the three year old students. This program is a developmental program with a hands-on approach to learning. We will cover shapes, colors, numbers, letters, music, nutrition, Bible, art, P.E., fine and gross motor skills and technology, while playing in centers. Enrichment is also a time for the children to grow socially and learn how to play together and work side by side.

Our class also includes lunch, playground and a rest time. You may order lunch in the morning for your child or prepare a lunch that your child enjoys. We will eat at the pavilion, go to the playground for some fun and then return for our rest time. We will provide a mat for your child but you may want to send a towel with your child as well, for a warm cover. Please, no pillows! We will send home your towel the last day of the week so you can wash it and send it back the following week. SRCS follows the guidelines of Palm Beach County HRS regarding napping for children staying in school all day. To make this time more inviting for the children, we provide a movie or soothing music during rest time.

Our class ends at 3:15 and pick-up is at the exterior door of our classroom. If you knock, we will have your child ready for you. Feel free to pick up your child early, as you may have other children to pick-up at 3:00. Please be sure to park your car to avoid blocking the elementary dismissal car line.

If you have a need for your child to stay past 3:30, SRCS offers aftercare.
